Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Monday 07 Jun 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Warm and sunny start, but cloudier later into the week.

This Evening and Tonight:
A dry night, with patchy cloud lingering over the region through the night. However, the occasional clear spell is still likely to develop. Perhaps a few mist and fog patches developing around dawn. Feeling cold under any clear skies. Minimum temperature 8 deg C (46 deg F).

Tuesday:
Any lingering fog and low cloud soon clears to give a dry day with plenty of sunshine across the region. Feeling warm but cooling overnight as skies also turn cloudier. Maximum temperature 23 deg C (73 deg F).

Outlook for Wednesday to Friday:
Cloudy with occasional outbreaks of rain Wednesday. These outbreaks continue on Thursday and Friday, but with some sunny spells expecting to develop in between. Fog likely to develop in places.
